Hardy Garden Lilies

Spring-Flowering Lilies

The varieties illustrated to the right have been specially selected for their early and spring blooming characteristics. They will provide ample color and delightful fragrance in your garden in late spring, after early Spring-flowering bulbs have finished blooming.

No other plants possess as many charms as Lilies. Available in such a variety of shapes and rich colors, they are stately in form and of such delicious fragrance that they stand out prominently.

Lilies do best in the hardy border or among shrubbery. They love to have their "heads in the sun and feet in the shade"—so provide a location where the base of the plant will be somewhat shaded. Once established, Lilies increase in beauty year after year.
